## PROJECTS

### ClearTextAI: AI-Powered Document Simplification Tool | Open-Source Project June 2025

- Created an AI tool to simplify complex documents, generate glossaries, and provide an AI tutor. Built with FastAPI, Streamlit, spaCy, and Gemini Pro for enhanced NLP and user interaction. GitHub - <https://lnkd.in/dnUvqGTt>

### Quiz-Wiz: Dynamic Quiz Generation Facility | VIT Bhopal University Sept 2024 – Jan 2025

- Built a full-stack quiz website using HTML, CSS, JS, NodeJS, and ExpressJS, sourcing quizzes from 5+ data sources (PDFs, YouTube). Enhanced accessibility with 20+ flashcards and dashboard features, increasing site traffic by 40%.

### VIT Campus Guide: Navigation Web-App | VIT Bhopal University Feb 2025 – April 2025

- Created an interactive SVG floor plan with over 30 clickable room details and faculty profiles, boosting visitor engagement by 25% and reducing navigation queries by 30% with an intuitive UI.

### Google Cloud Data Analyst Capstone: End-to-End Data Pipeline June 2025

- Built a data pipeline for collecting and processing data in BigQuery and used Looker Enterprise for analysis, transforming raw data into insights. Completed a comprehensive data journey project, highlighting cloud data management skills.

### Excel Smart Data Cleaning Assistant | Open-Source Project June 2025

- Developed a Python tool to clean Excel datasets using KNN for imputation and Isolation Forest for outlier detection, featuring a Streamlit frontend and FastAPI backend.
